

**Thank you,
Canadian Vintage
Motorcycle Group!**

**CENTENNIAL
COLLEGE**

Meet Ahmed Fesokh, the recipient of the Canadian Vintage Motorcycle Group Scholarship!

I have just completed my last semester of the Motorcycle and Powersports Product Repair Techniques program.

I am very grateful to have received this award. There are many costs associated with becoming an apprentice in the Motorcycle and Powersports industry. As a recent graduate and newcomer to Canada, this award allowed me to purchase the needed tool setup as an apprentice technician and allowed me to focus on my passion - learning. This award lifted a great portion of the anxiety related to the costs and debt that come with it.

Meet Ahmed Fesokh, the recipient of the Canadian Vintage Motorcycle Group Scholarship!

Fortunately, part of the program teaches much needed soft skills such as resume building, cover letter preparation, interview skills and searching for and applying to job postings. This allowed me to reach out to Pfaff Harley Davidson, apply, interview and sign a contract with them. I'm hoping to become a fully licensed technician and try to spread the joy of riding and working on motorcycles, whether through my experiences or through my goals to open my own shop.

A note of thanks from Ahmed

I am truly honoured and grateful to receive such an award. As I mentioned before, as a newcomer and a person who is making a complete shift in careers, receiving this award has helped me a great deal. It also has a great effect not only on the winner of the award, but the whole class' attitude. The students push themselves and challenge each other in a good way to bring out their best, perform and learn as much as possible.

**Thank you for
championing our
leaders of tomorrow!**
